REPORT OF THE CHIEF OF POLICE

Honorable Board of Selectmen, Citizens of Brentwood:

It is my pleasure to submit my report for the year 1968.

This past year, as required by law, the department has added a matron, Bette Southwick, to the department. She along with the other officers has attended and graduated from the Rockingham County Police Academy. This now brings the number to eight that have completed the Police Training Course.

A total of 362 calls with 1,054 man hours were made during the year. A breakdown of the calls is as follows:

Narcotics	3
Motor Vehicle	46
Accidents	19
Arrests	16
Convictions	16
Juveniles	4
Dog Complaints	38
Care and Disposal of Dogs	25
Vandalism	13
Breaking and Entering	14
Domestic	22
Skimobiles	2
Assault and Battery	1
Shooting Accident	1
Fires	9
Stolen Cars	3
Larceny	7
Windstorms	1
Air Rifles	2
Stray Cattle	10
Miscellaneous	126

As you can see, the number of calls continues to rise each year. We must realize that we have more and more

traffic to contend with. Also we have the Drag Strip in town, which helps our town, but also brings many Police Problems.

The toughest thing that law enforcement has to be concerned with is public apathy. Our work is such that we cannot discuss and bring out certain cases, facts and investigations that have been and are being undertaken and unless some unfortunate family is hit with a police problem no one knows what is really going on. This is the way it should be as we must treat information confidential to protect all concerned.

The Brentwood Youth Organization donated to the Police Department and the town an Electronic Penetrator which is very essential in case of a lost person, along with many other uses.

Again as in the past, it has been our pleasure to work with the Little League raising funds to keep this Little League one of the best in the State.

In conclusion I want to thank the members of the Department, Town Officers, the Brentwood Youth Organization and citizens for their cooperation this past year.

JOSEPH H. SOUTHWICK,
Chief of Police.

LIBRARY REPORT

Board of Selectmen, Citizens of Brentwood:

It is with pleasure I submit my report for the Library again this year. Cataloging is still in progress with Mrs. Rachel Sandborn, State Library Consultant, helping. We have purchased some very nice books both Fiction and Non-Fiction, as well as reference books. We have also been given a very fine copy of *Community Planning and Development*, a reference manual, by Co-operative Extension Service, University of New Hampshire, made possible by Miss Ruth Stimson, Extension Home Economist.

We have used around 900 books from the Bookmobile, also from the State Library and Exeter Library.

Thanks again for all your cooperation.

Respectfully submitted

FLORENCE E. CORBETT,
Librarian.

REPORT OF THE FIRE DEPARTMENT

Board of Selectmen, Citizens of Brentwood:

My report for the year 1968, accounting for the activities of the Fire Department:

Calls Answered:

Building fires	5
Car fires	2
Car accidents	3
Grass and brush fires	7
Stand by calls	2
Chimney fires	3
Investigate smoke	2
Lost child	1
Lightning strikes	2
Mutual aid calls to other towns	2
Mutual aid for Brentwood	2

During the year we had several bad fires. Because of the excellent job done by our men and the quick response (within 10 to 20 minutes) made by Mutual Aid towns, losses were kept at a minimum.

Much credit should be given to the men of the department, few in number but outstanding in the performance of their jobs as firemen.

During the year several new pieces of equipment were purchased to help improve and maintain the ability of the Department to do its job.

Safety decals for homes where a person or persons may be handicapped are available. Contact your Fire Chief.

I wish to thank the men and officers of the Department, the Fire Wards, the Ladies' Auxiliary, other Departments and the Citizens of the town for their fine cooperation during the past year.

Your Department is always ready to serve you in any way possible.

JAMES FRALIC,
Chief.

MARTIN LINDON,
Deputy Chief.

CIVIL DEFENSE

Honorable Selectmen, Citizens of Brentwood:

Report for the year 1968 of the Brentwood Civil Defense.

The rescue wagon was used by local residents twenty-one times this past year.

I am taking this opportunity to thank the interested citizens who have made donations which have been used to defray the cost of running and supplying the wagon with necessary items. I would also like to thank in behalf of the town, the Brentwood Youth Organization for its continued support which last year made possible the purchase of a multilevel stretcher, an orthopedic stretcher, and spare oxygen bottles for the resuscitator.

Civil Defense was able to purchase through government surplus stock a desk, chairs, and a safe to be used by the selectmen for the safe and orderly storage of town records.

I would again like to tell you that to get ambulance assistance dial your fire department number, 642-5452.

Respectfully submitted

NORMAN J. BYRNE.

SUPERINTENDENT'S REPORT

To the Citizens of Brentwood:

As our educational system becomes more and more complex it becomes increasingly more difficult to write a comprehensive annual school report. A worthy discussion of any one of its numerous issues would make it much too lengthy and involved. Therefore, I have chosen to comment on only those issues which seem to be of immediate concern to the citizens of Brentwood.

A major problem here, as well as throughout the entire state of New Hampshire, is that of teachers' salaries. The traditionally non-militant New Hampshire Education Association and the National Education Association have assumed a new role and are now providing the leadership to any and all local teachers groups in an attempt to substantially up-grade teachers' salaries, even to the extent of initiating a "Sanctions Alert" in New Hampshire.

Realizing that Brentwood cannot afford to keep pace with some of the larger more wealthy communities in the area the school board has offered all degree teachers in Brentwood a starting salary of \$5,700 next year. To some citizens this may seem astronomical, however, your school board knows that Brentwood must begin such an up-dating program if it is to attract and retain competent teachers. The vast majority of communities in New Hampshire will be starting their teachers at approximately \$5,900 to \$6,000 next September.

In the area of Federal Aid programs, Assistant Superintendent Frank Games has informed me that our federally-aided programs may be in for some changes. He states:

"Last year the title programs were mentioned as a permanent part of Federal support to our education.

However, we are faced with a dilemma when we are planning our projects in the various districts. The amount depends on the appropriations made by Congress and they do not always consider local priorities. For example, we received \$5,300 in 1966-67 under Title II for classroom materials and library books. This year we are limited to \$2,069 and yet our needs in this area have expanded in trying to meet the individual differences. Our Title I program, with remedial reading teachers in all elementary school districts, has been allotted a sum of \$15,812 for the school year 1968-69, which is \$2,700 less than in 1967-68. Yet a paradox is evident in the fact that new title proposals have emerged in bilingual education, special projects for handicapped youngsters, grants for teachers to study in special education, and Title III innovative practices to develop pilot programs.

What a change in administration in Washington will do is yet to be finalized. A flood of new forms and criteria can be expected as a minimum transitional adjustment to the new party in power. At present we have helped to plan a substantial Title III project in pre-school improvement of school readiness. Dr. Earl Goodman in the Department of Home Economics at the University of New Hampshire has drafted the proposal for the state ESEA committee to consider during March of 1969. This could be of vital concern to all our school districts beginning with Newmarket and Epping.

The State Department of Education is making an examination of elementary school standards. The results will establish recommendations for all the towns and cities of New Hampshire. The criteria will take final form in the foreseeable future. It is our hope that we will be among the accredited school districts when the evaluation program is available for our consideration. The principals are making a determined effort to provide the leadership we need for quality instruction in all areas of the curriculum."

In conclusion it might be appropriate to comment upon the tremendous growth we are experiencing in our Supervisory Union No. 14. Our total enrollment now is approximately 2,600 pupils this year. Sanborn Regional (Kingston-Newton) leads the way with 1,252; Newmarket has 516, Epping 512, Brentwood 145, and Fremont 135. Our transportation system is enormous with school buses transporting 1,900 children and covering well over 1,200 miles per day. School lunch programs are maintained in five of our schools with approximately 850 pupils participating in this program each day.

The operation of such a large and dynamic organization requires the services of more than 150 teachers, in addition to a countless number of non-professionals such as secretaries, custodians, school lunch workers, bus drivers, etc.

The total 1968-69 operational budget for this unit is \$1,963,273 — a sizeable business in any man's language.

Respectfully submitted,

FRANCIS C. WILSON,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

*To the Superintendent of Schools and the School Board
of Brentwood:*

I respectfully submit the following report of the school Health Program at Swasey Central School for the Fall Term — September thru December 1968.

The school health program refers to all aspects of the program that affects the health of the school population. It is usually considered to include three main categories: (1) health services, (2) health education, and (3) healthful school living. Health services would be that part of the program which includes screening for vision, hearing, dental and other defects. Also included are health examinations by school physicians and the follow-up of these exams by the nurse assisting in plans for the correction of defects. Control of communicable diseases and emergency care of the sick and injured are a part of the health services.

School health education is that part of the program which provides teaching and learning experiences and activities for the purpose of favorably influencing knowledge, habits attitude and conduct pertaining to individual and group health. The school nurse is available as a resource person to assist the teachers in the use of health materials, to assist in the planning and organization of health education classes and to provide individual health guidance as well as teaching some units.

Healthful school living is a term used to describe the school environment. It includes such factors as the emotional climate of the school and its effects upon mental health of the pupils. It is also concerned with drinking fountains, washing facilities, prevention of accidents and safety on the playground.

Routine procedures carried out throughout the fall include the following:

All pupils in all grades were weighed, measured and have had vision and hearing tests. Inspection of teeth, hair, posture and general cleanliness were done on all pupils. Five visual defects were found and referred. Three hearing problems were found and referred. Health records for all pupils were reviewed and immunization records updated.

Forty nine Tuberculin tests were administered to pupils and school personnel.

Three speech defects were found and one referred for further evaluation to the Speech Clinic under the direction of the Portsmouth Rehabilitation Center.

A Dental Clinic was established with Dr. Pollock's office in Exeter beginning in December and continuing into the first of the year. Six children were seen in December. A dental hygienist from N.H. State Dental Association visited each classroom showing films and discussing personal dental hygiene.

A health Club was originated for grades four through six. Representatives from each class met once a week with the nurse for health teaching. The representatives, in turn, presented this material to their class with prepared resources and activities from the nurse available to the teachers to be used during the pupil's presentation.

Every week class discussions are held with grade three pupils concerning health habits and practices. (Grade two has an excellent health course presented by their teacher.)

At a Teacher's Meeting early in the fall first aid procedures and policies were discussed and the *Brookline School Health Manual* of first aid procedures reviewed.

Films on accident prevention and mouth to mouth resuscitation have also been shown.

The administration of first aid to students may take up a great deal of time during a school day. A total of 136 first aid procedures were administered by me during two mornings a week for these four months.

A total of 21 home contacts, 6 home visits, 68 teacher consultations and 33 professional consultations were also held during these fall months.

I wish to thank everyone for their kind assistance and cooperation in our strivings to continue and improve the school Health Program.

Respectfully submitted,

HOPE M. SHELLEY, R.N.,
School Health Nurse.
